

IRONING LINE

REF. BF070

IRONING BOARD WITH 2LT BOILER

Professional ironing board with 2 lt boiler and Bieffe professional iron.

The BF070 ironing board has a copper boiler, anti-scale material, with a capacity of 2 liters that guarantees an ironing autonomy of about 3 hours with the possibility of choosing to iron also dry.

The ironing board is foldable and you can store it in any room of the house. The boiler power is 900W with an operating pressure of 3 Bar, the professional iron has a power of 850 Watts.

Everything is assembled together with an ironing board with heated top that allows you to dry your clothes with a maximum absorption of 700 Watts and equipped with 150 Watt suction engine that will keep your clothes well spread on the top. Perfect for tailor shops, dry cleaner's, dressmaking labs and hotels. It is also used in household thanks to its affordable price.

EFFICIENCY, SAFETY and NOTES

- ✓ RELIABILITY AND SAFETY are guaranteed by a COPPER BOILER. Copper is an explosion-proof and antiscaling material. The HEATERS are placed externally, so they NEVER come into contact with water.

- ✓ 1 KW power creates a steam flow equal to 1,2 kg/h (20 g/min). The efficiency of steam is proportional to its flow, not to its pressure. There is no point in having high pressure and a low flow.

- ✓ The whole production is based in Italy, in our plant in Pesaro.

SPARE PARTS AND SERVICE

BIEFFE guarantees the shipping of spare parts, accessories in very short times. Our efficient help line is available for service and assistance.
