

IRONING LINE

REF. BF091

NEW JOLLY

Universal ironing board heated and aspirating with temperature adjustment by means of thermostat.

NEW JOLLY is a fantastic ironing board with the heated surface that allows you to dry your garments with a maximum absorption of 700 Watt, furthermore, it has inside a suction motor of 150 Watt that will keep your garments well laid out on the board thanks to the uncluded pedal for activating the suction whenever you want. The iron board can be folded so you can store it in any room of your house. On our website you can find optional sleeve arms and fantastic trolleys for garments. Perfect for tailor shops, dry cleaner's, dressmaking labs and hotels. It is also used in household thanks to its affordable price.

EFFICIENCY, SAFETY and NOTES

- ✓ **RELIABILITY AND SAFETY** are guaranteed by a **COPPER BOILER**. Copper is an explosion-proof and antiscaling material. The **HEATERS** are placed externally, so they **NEVER** come into contact with water.
- ✓ **1 KW** power creates a steam flow equal to **1,2 kg/h (20 g/min)**. The efficiency of steam is proportional to its flow, not to its pressure. There is no point in having high pressure and a low flow.
- ✓ The whole production is based in Italy, in our plant in Pesaro.

SPARE PARTS AND SERVICE

- BIEFFE** guarantees the shipping of spare parts, accessories in very short times. Our efficient help line is available for service and assistance.
